

IMMUNE+++ is a triple defense formula sourced from high quality, natural ingredients that are proven safe and effective to strengthen your immune system*.

A STRONG IMMUNE SYSTEM LEADS TO

- Better ability to fight off germs and infections
- Rapid immune response
- Faster recovery from colds
- Reduced inflammation

IMMUNE+++ is a combination of the Opti-Shield Blend, Life-C Blend and Herb & Botanical Blend that together offer a triple punch against viruses and bacteria and keep our immune system healthy and functioning well.

IMMUNE+++ ENDORSEMENTS

Immune Health

"I took two IMMUNE+++ in the morning and two at night. After 3.5 days, my congestion cleared up. After seven days, I no longer had a sore throat or watery eyes. You bet I'll be telling everyone about IMMUNE+++ and how I really believe in it!

I'll especially be telling people who have compromised immune systems or are around others with the flu. Personally, I didn't need to see the doctor and am happy about that. Now I'm taking one in the morning and one at night to stay well."

- Karen M., U.S.A.

"I started to take IMMUNE+++ and little by little, I felt better. After three days, I could really feel a difference. I didn't have my head discomfort and was no longer congested. After five days, my throat felt better. I will definitely be sharing my results with other people. I'll tell them how it improved immunity and recuperation, because IMMUNE+++ helped me recover fast."

- Adina R., U.S.A.

"People around me at work are down and out with the flu. Some have had it for two months—it's the type that comes back after you think it's gone! IMMUNE+++ really helped me. I didn't have to miss any days of work, and I didn't have to take to bed. I would say I did 500 times better than the others, and I will tell them about it. I'm going to continue taking IMMUNE+++ because I want to stay well. I'm on the mend and going to order more for my son and 85-year-old mother."

- Roxane H., U.S.A.

"I'm going to be sharing IMMUNE+++ with the members on my team as well as anyone who is not feeling well. I will be teaching people how IMMUNE+++ is a way to stay healthy, especially during flu season. Personally, I have

been taking Laminine for nearly four years now and am usually healthy. However, recently I had debilitating head discomfort accompanied by chills, loss of appetite and nausea. On the second day of taking IMMUNE+++ , I could already feel my temperature normalizing and by the third morning, the terrible head discomfort was gone. I continued to take IMMUNE+++ for a total of seven days and my winter aches and discomforts did not come back."

- RS M., U.S.A.

IMMUNE+++ ENDORSEMENTS

Immune Health

"I can't pinpoint how IMMUNE+++ made me feel better, but I am sure it did! I actually had a lingering cold since before Christmas. It went on and on. Then I started the 7-day IMMUNE+++ challenge the last week of January. I love natural stuff—I'm someone who can't take antibiotics. I'm telling people about it, because they've seen me sick for so long and I'm finally feeling a lot better. I'm ready to reorder IMMUNE+++."

- Kristy T., U.S.A.

"When I started taking IMMUNE+++, I was just starting to feel under the weather. After the first two days, I already felt better. Five days in, I feel free and clear. I will be sharing my results with all my contacts and whenever I meet people. For me, the most impressive part of my experience with IMMUNE+++ is that I worked a trade show where there is always a lot of dust. Normally, I tend to be congested for days afterwards. This time, because I was taking IMMUNE+++, I could breathe freely during and after the trade show. And, IMMUNE+++ stopped me from having a full blown attack."

- Patrick K., U.S.A.

"IMMUNE+++ is a great product to maintain good immune health. I took it for 10 days, two in the morning and two in the evening, to help fight the bug. I felt it gave me a lot more energy. I'm telling everybody about IMMUNE+++ , especially how helpful it is during the winter season. Not only will I order it for personal use, but I'll be using it as a business-building tool. Currently, my daughter, son-in-law, mother-in-law and wife are all using IMMUNE+++ . I will be using IMMUNE+++ all the time now."

- Serghei E., U.S.A.

"I have a compromised immune system. When I get sick, I have to be very careful it doesn't turn into something major. When I started to get sick, I could feel it behind my eyes. Typically when that happens, it becomes severe. This time, I took IMMUNE+++ and my body just loved it! I started taking IMMUNE+++ on a Thursday and could feel it resonate. Within three days, I felt as if I was entirely better. On Sunday, I felt like it was coming back, but I was still taking the IMMUNE+++ and I was well again in two days. It's important for me to take measures to remain healthy, so I will be taking IMMUNE+++ for maintenance. I can definitely tell a difference with it. I will be ordering it for my 95-year-old neighbor who lives alone and is completely independent. Even though he's healthy, I think it's important for someone his age to have something that will keep his immune system strong."

- Patricia H., U.S.A.

IMMUNE+++ ENDORSEMENTS

Immune Health

"I was experiencing a range of winter aches and discomforts when I began taking IMMUNE++. Within three days, they were gone. I continued to take IMMUNE++ for a total of seven days and am really impressed with the results. None of the discomforts came back. I really need to share this terrific product with others. I've sent it to my granddaughter who has immune issues and I want to get the word out to everyone. I will be sending an email to all my friends to let them know about IMMUNE++. Together with Laminine, I think this is a great product to help build a business. I'll be taking it for maintenance."

- Sharon H., U.S.A.

"Before I started on IMMUNE++, I chronically had a sore throat as well as nasal drip and congestion. I live in Puerto Rico, an island where we constantly receive dust from the Sahara desert. This affects the atmosphere and our population feels the effects of this situation. On the third day of taking IMMUNE++, the nasal drip and congestion stopped. My throat was back to normal. "I am still taking IMMUNE++ since I want to try to stabilize my health in every area. I am telling others about my experience, since almost everyone has many health challenges and LPGN products can give them positive results without side effects. I am also sharing with my downline so they may also experience the positive outcome I had with IMMUNE++. I look forward to developing my LPGN business step by step and helping others learn about our excellent company and the opportunity to increase their income, make a solid career and become successful!"

- Monse A., Puerto Rico

"I was suffering from a stomach virus and experienced such a deep fatigue that I could barely get out of bed. I started to notice my energy coming back on day two of taking IMMUNE++. I also began to sleep better and get more rest. I felt the effects of the IMMUNE++ very quickly. I've shared it with my wife—she is not ill but I believe it will help her stay healthy. I will be taking IMMUNE++ to maintain my health and plan to share it with people, as I gradually will build a business."

- Michael C., U.S.A.

"I was sick for a whole week and had been drained of energy. Then my bottle of IMMUNE++ arrived. Within three or four days, I felt better. I really think it helped me recover faster. I've already told my friend who has the flu about it and have also shared it with another friend with an immune disorder. IMMUNE++ is a great product to always have on hand, especially during the winter months."

- Hilary S., U.S.A.
